PROFESSIONAL EXPERIENCE

Graduate Research Software Engineer | Rosen Center for Advanced Computing, Purdue University, IN | **May 2025 - Present**

- Ran the HubZero platform refactoring as project manager, authoring the charter that senior leadership approved and planning the roadmap, milestones, deliverables and risks for a core team of four.
- Built a Google Gemini 2.0 Flash agentic AI platform and a retrieval-augmented generation (RAG) pipeline for research workflows, staying current with emerging technology.

Application Solution Product Intern | Micron Technology, Boise, ID | **May 2026 - Aug 2026**

- Delivered the ITRUST data-governance product, scoping and prioritizing the feature set against user needs and business impact.
- Gathered requirements from stakeholder teams, presented the access model for sign-off and shipped configurable access-control and audit capabilities.

Graduate Data Science Researcher | Johnson & Johnson (Purdue research partnership), IN | **Jan 2025 - May 2025**

- Built a natural-language data-visualization product with Johnson & Johnson that let business users query and visualize data without writing code, working across NLP, data-engineering and UI teams.

Software Engineer II | Cisco Systems, Bengaluru, India | **Jan 2022 - Jul 2024**

- Led cross-functional collaboration across product management, engineering, design and sales to define and execute the product strategy for an enterprise cloud platform.
- Launched the revamped data export feature with S3, Azure, Google Cloud and Box integrations and grew exports by 700% while improving usability.
- Owned the product roadmap, backlog and lifecycle, defining acceptance criteria and validating requirements against Figma wireframes.
- Ran market and user research, tracked KPIs and validated market fit to prioritize the roadmap and close customer feedback loops.
- Created onboarding and enablement materials in Confluence and SharePoint and facilitated Agile delivery across 4 teams in Jira.

Core Team Member | Emerging Talent at Cisco (ETC), India | **Aug 2021 - Jul 2024**

- Organized events and sessions for a 2,000+ professional community over three years, coordinating external vendors and presenting to the community.

Project Manager | Edcreate Foundation, Bengaluru, India | **Feb 2022 - May 2022**

- Led 6 developers to deliver the foundation's website, defining goals from requirements and delegating by expertise, and grew partner site traffic 5x.

EDUCATION

MS, Engineering Management | Purdue University, West Lafayette, IN | GPA 3.77/4.0 | **Aug 2024 - Dec 2026**

B.Tech, Computer Science and Engineering | SRM Institute of Science and Technology, India | GPA 8.75/10.0 | **Jun 2016 - Jun 2020**

SKILLS

Product management: product strategy, roadmap planning, backlog and lifecycle management, launch and positioning, market fit, KPIs

Market and customer research: market research, competitive analysis, user research, customer feedback loops, requirements gathering

Cross-functional and go-to-market: product, engineering, design, sales and marketing collaboration, sales enablement, external partner and stakeholder presentations

Planning and delivery: roadmap and delivery planning, milestone and dependency scheduling, forecasting, risk management, Agile and Scrum

Analysis and tools: reporting and dashboards (Tableau, Power BI), Microsoft Office (Excel, PowerPoint, Word), Jira, Confluence, SharePoint, SQL

Domain: networking and enterprise hardware (Cisco), semiconductor and memory (Micron)

CERTIFICATIONS

Project Management Professional (PMP)
Certified Scrum Product Owner (CSPO)
Certified ScrumMaster (CSM)
NVIDIA-Certified Professional, Agentic AI (NCP-AAI)
